

BOVIE® BANTAM | PRO ELECTROSURGICAL GENERATOR

The Bovie® Bantam PRO A952 is a high frequency desiccator that also has cutting ability. The unit provides 50 watts of cutting power and coagulation modes – plenty of power for most procedures performed in the doctor's office. Power is adjustable in 1/10th watt increments from 0 to 10 watts, for the most accurate output available. No grounding pad is required when working in desiccation mode.

The unit also features NEM™ (Neutral Electrode Monitoring) pad sensing technology which monitors the return electrode for optimum patient protection. The Bovie® Bantam PRO A952 is backed by Bovie's four (4) year manufacturer's warranty.
