# Diagnostix 3.5V Adstation

ADC's Diagnostix 3.5V Adstation offers a complete diagnostic solution, putting a full assortment of core tools within easy reach. With our modular system, you can start with a single EENT tool, then add up to three additional instruments plus blood pressure and thermometry.

## Diagnostix Adstation with Clock Aneroid

Model: 5610L-347

### ***New, Simplified Wallboard!***

We've updated our Adstation wallboard to a universal one-size design. Made of a compressed particle board, the new system uses a **Z-clip** mount that's fully compatible with competitive designs, allowing for a quick installation on existing hardware.

New installations ship with all assembly hardware and an easy-to-use template to simplify mounting.

Z-Clip  
Mounting

- Diagnostix Clock Aneroid with cuff storage basket, coiled tubing, and adult and large adult inflation systems
- 3.5V Diagnostix Coax Ophthalmoscope
- 3.5V Diagnostix Standard Otoscope with specula dispenser
- Adtemp 429 Non-Contact Thermometer
- High-performance AdLED lighting technology
- Wall board for simplified mounting
