

Lab Solutions Combo Promotion:

Pentra C400 Chemistry + Micros 60 Hematology + Lite^{DM} Data Management

What's Included	<ul style="list-style-type: none"> • Pentra C400, with 1 year warranty • Pentra C400 contract includes Micros Service at no extra charge • Micros 60 CT analyzer, with 1 year warranty • Lite^{DM} Data management System with Micros and Pentra C400 connection <ul style="list-style-type: none"> • (2) additional Lite^{DM} connections currently developed at no charge when connections are installed during analyzer installation • QC-RT QAP program at no charge as long as under warranty or service agreement
How to qualify for promo*	<ul style="list-style-type: none"> • Minimum annual combined reagent, calibrator, control and consumables purchase is required • Customer must sign a 60-month POS service agreement (direct with HORIBA Medical)

*See back for full terms and conditions

	Features	Benefits
Pentra C400 Chemistry Analyzer	Small Footprint	Fits into small labs, does not require water system or specialized electrical. Saves bench space
	>70 Moderately Complex Assays including Drugs of Abuse	Many tests can be brought in house to reduce turnaround times and improve patient care
	Processes up to 420 test/hour with ISE	Expanded capacity versus most benchtop analyzers
	Minimal Maintenance	Valuable technologist time is spent on critical, value-added tasks instead of maintenance
Micros 60 Hematology Analyzer	CBC with 3-part differential	Patient results are available rapidly
	Provides results in 60 seconds	Critical information provided to physician at the time of patient visit
	Sample tube holder compatible with 16 different sample types	Only need one sample adapter for any compatible tube type
Lite^{DM} Data Management	Comprehensive QC and patient data management.	Data is automatically transmitted for review and to EMR for use by Physician Can view and compare past results
	Can connect to up to 4 analyzers, including urinalysis, immunoassay, and other platforms	Eliminates the need for separate data management software for each platform
	Can insert up to 4 manual tests for a complete patient result	All patient laboratory results on one location

Terms and Conditions

- Promotion ends on December 31, 2024, while supplies last
- Analyzers must ship by December 31, 2024
- Must sign a 60-month POS service agreement for all Lab Solutions promotions where applicable
- No annual reagent minimum commitment on the hematology analyzers
- Minimum spend for chemistry systems as listed in program must be met. Minimum annual reagent volume for Pentra C400 is based on minimum for viability of placement.
- No trade-in allowance on any promotions
- Analyzers can only ship to, and be installed in one location
- Analyzers in combination options must ship together
- Cannot combine with any other programs or promotions for the product lines
- Cannot be included in, or as part of, a GPO or IDN agreement
- Cannot mix terms of GPO/IDN contracts with this promotion (other than reagents and consumables)
- Lab Solutions promotion pricing applies to government, commercial, POL and hospital accounts; must comply with all terms and conditions of promotion
