# One Device. Complete Patient Assessment

## Clinical & Operational Benefits

**All-in-One Solution:** Consolidates multiple diagnostic tools into a single station

**Efficiency:** Perform complete patient assessments in minutes

**Connectivity:** Direct EMR integration streamlines documentation and supports paperless workflow

**Accuracy & Safety:** Standardizes processes to reduce errors and staff burnout

**Increase revenue:** With a 6-minute walk test and bill multiple CPT codes in one encounter

## Key Features

- **Vital Signs** (NIBP, SpO<sub>2</sub>, Respiration Rate, Temperature, Heart Rate)
- **12-lead Resting ECG** with interpretation
- **3-lead Rhythm ECG**
- **6-Minute Walk Test** for cardiac & respiratory assessment
- Wi-Fi & Ethernet connectivity with **bidirectional EMR** integration (HL7 / DICOM)
- **Intuitive** touchscreen interface

## Why choose DS-20?

- Streamline workflows and eliminate transcription errors
- Improve staff efficiency and reduce burnout
- Expand your service offering with preventative, occupational, and specialty care
- Support better patient care while optimizing your revenue streams

## CPT Billing opportunities

99211 – 99215 | Established patient office visits
